**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on May 5, 2003 has been entered.

### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 9-16 are rejected under 35 U.S.C. 102(b) as being anticipated by Bourke 5,755,293. '293 discloses a power saw comprising a body and a motor housed in the body (please refer to column 5, lines 9-12), the motor arranged to power a reciprocable shaft on which a blade for sawing may be mounted; a pivotable sole plate attached to the body and arranged to be held relative thereto in a plurality of positions such that in at least one position the sole plate acts as a guide for use of the saw as a jig saw with the blade passing through the sole plate (through the plane of the sole plate) and the body defining a recess within which the sole plate may sit when in at least one of the plurality of positions. See figure 1.

***Claim Rejections - 35 USC § 103***

4, The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claim 17 is rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Bourke '293 in view of Bradley 1,035,524. It is the examiner's position that '293 discloses the claimed invention, including that the blade is mounted to pass through the sole plate, in that the blade passes through the plane of the sole plate. Note that neither the disclosure or figures discuss or show how the blade passes through the sole plate (please refer to figures 12 and 13. However, if the limitation is read as the blade physically passing through an opening in the sole plate, then the examiner relies on '524 to teach, in a reciprocating saw, a sole plate 29 that is pivotable and in which the blade is mounted to pass through the structure of the sole plate, and not just the plane of the sole plate.

***Response to Arguments***

6. Applicant's arguments filed May 5, 2003 have been fully considered but they are not persuasive. Applicant argues that '293 does not disclose a power tool which includes a body and a motor housed within the body. This is incorrect. The drill inherently disclosed is a body and a motor is housed within the body. Applicant further argues that the blade does not pass through the sole plate. Please refer to the

rejections above. Again, there is no disclosure to structure which would allow the blade and plate to function as argued by applicant.

***Conclusion***

7. Any inquiry concerning the content of this communication or earlier communications from the examiner should be directed to M. Rachuba whose telephone number is (703) 308-1361. The examiner can normally be reached on Monday through Friday from 8:30 AM to 4:00 PM. Any inquiries concerning other than the content of this and previous communications, such as missing references or filed papers not acknowledged, should be directed to the Customer Service Representative, Tech Center 3700, (703) 306-5648.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Joseph Hail, can be reached on (703) 308-2687. The fax phone number for this Group is (703) 872-9302.

In lieu of mailing, it is encouraged that all formal responses be faxed to 703-872-9306.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Group receptionist whose telephone number is (703) 308-1148.
